

ANNOUNCEMENT

REGIMBEAU IN MUNICH - 5 YEARS ALREADY!

Munich, 13 December 2017

We are very happy to celebrate the **5th anniversary** of our Munich office.

The opening of this office in 2012 was a way for REGIMBEAU to strengthen our European footprint, which has continued to be reinforced ever since.

Not only has REGIMBEAU set up a dedicated team with resources for representation of foreign applicants before the European Patent Office, we have also worked to be prepared for the upcoming Unitary Patent and Unified Patent Court.

In particular, in early 2017, REGIMBEAU published a book entitled "*Unitary Patent and Unified Patent Court, Europe adopts new tools for innovation*", dedicated to this major European project.

This book followed the release of , a free online tool enabling you to compare the post-grant costs for European Patents with or without a unitary effect in view of the forthcoming Unitary Patent system (see www.unitary-patent-costs.eu).

We will continue monitoring closely the changes that the European patent system is likely to undergo in 2018, and we are at your disposal to accompany you and for any question you would have.

- **About REGIMBEAU**
