

Life Sciences & Chemistry at Regimbeau

French and European Patent & Trademark Attorneys

REGIMBEAU : Creative IP

For over 85 years, our ambition has been to make Industrial Property a key asset in the development of economic players and project leaders.

By placing quality and creativity at the heart of our activity, we focus on giving businesses an edge in regards to the protection, defence and valuation of our clients' assets (patents, trademarks, designs, contracts, copyrights, etc.) in France and around the world.

Our teams' diverse expertise is at our clients' disposal in order to address the most complex of matters, all the while accompanying them with respect to their day to day needs.

An experienced team of partners

Frédérique FAIVRE PETIT, Partner

Life Sciences

For over 25 years, Frédérique FAIVRE PETIT has been advising, assisting and supporting small, medium and large companies in the Biotechnology field. Her experience as head of European Patent Litigation within a major pharmaceutical group has provided her with a comprehensive expertise in management, strategy and patent litigation, both in France and at the European Patent Office. She is a lecturer at the CEIPI as well as in several University Degrees and regularly participates in seminars and conferences, in France and abroad.

faivrepetit@regimbeau.eu

Barbara CASEDEWALL, Partner

Life Sciences

Barbara CASEDEWALL is a doctor in microbiology and a biotechnology engineer. With her in-depth knowledge of biotechnologies, she assists many companies for over 15 years, whether they are start-ups, SME's or international groups, with their IP strategies, by providing personalised advice not only in the construction and consolidation of their portfolios, but also in their litigation or pre-litigation management.

casadewall@regimbeau.eu

Stéphanie CELAIRE, Partner

Chemistry

Stephanie CELAIRE brings more than 15 years' experience to her consulting expertise especially in pharmaceutical and agribusiness fields. She has a vast experience in European oral proceedings and infringement litigation in France.

Stéphanie is also a lecturer at the ESIEE and AgroParisTech.

celaire@regimbeau.eu

Anne BOGARD BOUTARIC, Partner

Chemistry

Anne BOGARD BOUTARIC has a vast experience in European oral proceedings and infringement litigation in France and Europe. In particular she intervenes for large pharmaceutical firms for over 15 years. She has developed an expertise in the field of Supplementary Protection Certificates (SPC).

boutaric@regimbeau.eu

Emmanuelle LEVY, Partner

Chemistry

Emmanuelle LEVY brings more than 15 years' experience to her consulting expertise in numerous fields, including cosmetics, food supplements, organic chemistry and the environment. She is an expert in United States Patent law. A lecturer at the INPI, Emmanuelle also participates in numerous patent training courses, whether for our French clients or our international network of foreign correspondents.

REGIMBEAU in figures

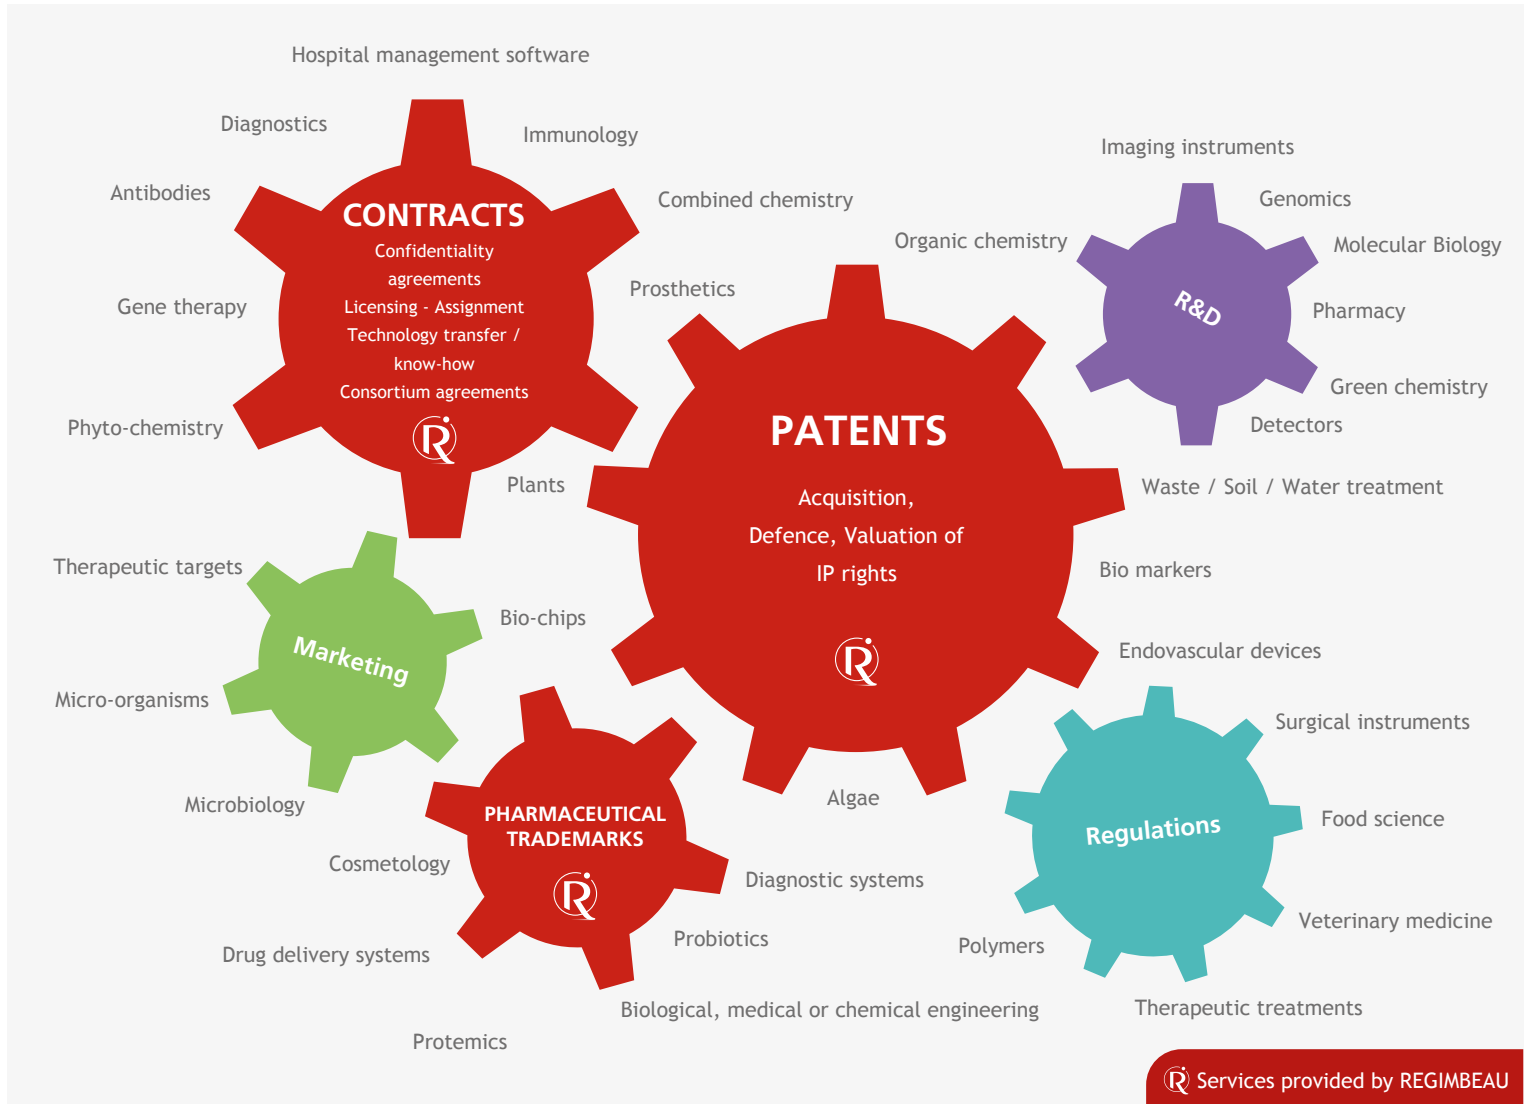

- 200 employees
- Ranked in the top tier of French & European IP Law firms
- Head quarters in Paris
- 6 offices in Rennes, Lyon, Grenoble, Montpellier, Caen, Toulouse
- 1 branch in Munich
- Certification ISO 9001 : 2015, covering the entirety of its Intellectual Property activities

Extensive experience with Patents

REGIMBEAU's teams have extensive experience in the acquisition and defence of Industrial Property rights in all Chemistry / Life Sciences fields (from the preparation and filing of the application, to the granting of the patent, including all the procedural steps). Not only in Europe, but in any country where our clients are interested in protecting their inventions.

Thanks to a thorough understanding of the current competitive environment REGIMBEAU maintains a close relationship with its clients and helps them in the management of their Industrial Property assets through a privileged network of foreign correspondents, that ensure an adapted and effective worldwide representation.

IP Portfolio Evaluation

The assessment and valuation of an IP Portfolio is crucial to enable companies to raise funds, build partnerships, acquire intellectual property rights or obtain licences in order to accelerate their business development.

Industrial property audits and due diligence actions require the kind of specialist expertise that REGIMBEAU can provide.

Opposition procedures remain the most effective way to cancel or limit a patent within all Member States designated in the European Patent Convention.

REGIMBEAU's 30 European Patent Attorneys attend to and represent their French and foreign clients, not only when they wish to oppose a patent, but also to advise and assist when their own patents are subject to an opposition.

This includes representation at oral proceedings before the EPO in both oppositions and appeals.

REGIMBEAU in Munich !

Drawing of its extensive European Patent experience, REGIMBEAU's presence in Europe has been strengthened with a branch based in Munich and the establishment of an organisation and resources dedicated to the treatment of our clients European Patents.

This organisation relies on REGIMBEAU's expertise in the specific treatment of European patent applications.

REGIMBEAU can therefore offer its clients an enhanced and competitive management of their European patent applications, supported by a team of experienced European Patent Attorneys.

Litigation: Adapting to the clients' needs

The protection of patent rights is a challenge for their owners. REGIMBEAU provides the necessary technical and legal expertise in the preparation and management of litigation before the French courts. However, even if patent litigation is often required to manage Industrial Property disputes, REGIMBEAU also proposes exploring other strate-

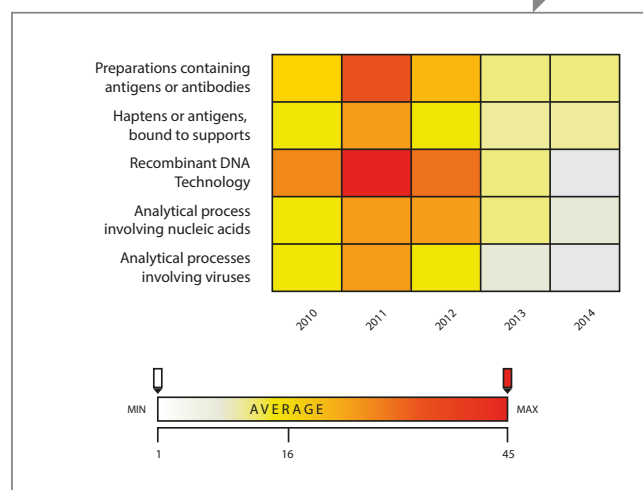

gies such as opposition, licensing or joint-venture negotiations for the benefit of its clients.

REGIMBEAU offers a comprehensive range of tools to deal with the most complex of European IP issues.

IP Intelligence

The IP Intelligence Department conducts scientific, legal and/or technological investigations aimed at helping REGIMBEAU's clients in their strategic decision making. It also carries out studies relating to patent portfolios, right-holders, competitive activity, prior art availability, etc... and provides analysis using various tools, such as mapping, allowing clients to evaluate short and medium term risks, or to assess and anticipate future developments. This department is made up of Intellectual Property research specialists covering all the technical domains. They work closely with REGIMBEAU's Patent Attorney's, for example, on the freedom to operate searches.

Example of Mapping :
Number of Ebola Vaccinations Filed in Different Technical Fields

Each of our Industrial Property specialists has a technical and/or IP law background. They are thus well equipped to address any patent issues our clients may face while, at the same time taking into account the competitive business and economic environment in which they operate.

PARIS

- **Frédérique Faivre Petit**, Partner, French and European Patent Attorney, Biologist, Master of Law (distinction in 'Legal Procedure and Criminal Science') (Université Paris II), Paris

LYON

- **Barbara Casadewall**, Partner, French and European Patent Attorney, Ph.D in Microbiology (Institut Pasteur), Paris
- **Anne Bogard Boutaric**, Partner, French and European Patent Attorney, Master's in Chemical Engineering (Ecole Supérieure de Chimie Physique et Electronique, Lyon), Lyon

RENNES

- **Stéphanie Célaire**, Partner, French and European Patent Attorney, Master's in Engineering (Institut National Agronomique Paris-Grignon), MSc in Biochemistry (Institut Gustave Roussy), Master of Business Law, Paris

MONTPELLIER

- **Emmanuelle Levy**, Partner, French and European Patent Attorney, Master's in Chemical Engineering (Ecole Supérieure de Chimie Physique et Electronique, Lyon), Paris

GRENOBLE

TOULOUSE

CAEN

MUNICH

- **Marc Levieils**, Partner, French and European Trademark & Design Attorney, Head of the Contracts & IP Valuation Department, Paris
- **Francis Ahner**, Of Counsel, French and European Patent Attorney, Master's in Engineering (Ecole Nationale Supérieure de Chimie in Strasbourg - ENSCS), Paris
- **Philippe Bessière**, Head of the Toulouse Office, French and European Patent Attorney, Ph.D in Biology-Enzymology (Université de Bordeaux I), Master's in Engineering (ENSCBP), Master of Private Law (Université de Toulouse III), Toulouse
- **Armelle Leonard**, Head of the Montpellier Office, French & European Patent Attorney, Master's in Engineering - Pharmacology and Biotechnology (Université de Nice Sophia-Antipolis), Montpellier
- **Cécile Puech**, Senior Associate, French and European Patent Attorney, Ph.D in Immunology (Université Paris VI and Institut Pasteur), Paris
- **Soizic Guindeuil**, Senior Associate, French and European Patent Attorney, Ph.D in Organic Chemistry (Ecole Polytechnique), Paris
- **Gabrielle Faure-Andre**, French and European Patent Attorney, Ph.D in Immunology (Université Paris VII), Paris
- **Nicolas Bouquin**, Senior Associate, French and European Patent Attorney, Ph.D in Microbiology (Université Paris XI), Paris
- **Morgane Rieant**, French Patent Attorney, Master's in Engineering (Ecole Nationale Supérieure de Chimie, Lille), Paris
- **Raphaëlle Gillet**, French and European Patent Attorney, Ph.D in Molecular and Cellular Biology (Institut Cochin de Génétique Moléculaire), Lyon
- **Lazarina Choisnel**, French & European Patent Attorney, MSc in Biotechnology Law (Université de Versailles), MSc in Cellular Biology and Physiology (Université Paris VII), Paris
- **Aurélia Vavasseur**, PhD in Cellular Biology (Ecole Doctorale de Chimie et des Sciences du Vivant, Grenoble), Paris
- **Laure Berruet**, French & European Patent Attorney, PH.D in Pharmacology and Medicinal Chemistry, Lyon
- **Marion Gizzi**, Master's in Engineering (ENSTA ParisTech), Ph.D in Organic Chemistry (Ecole Polytechnique), Paris
- **Sara Haines**, Bachelor of Science in Microbiology and Chemistry (Oregon State University, USA), Ph.D in Microbiology (Université de Lyon), Lyon
- **Amandine Carrer**, Ph.D in Organic Chemistry (Université Paris Descartes), Lyon
- **Lucile Vernoux**, French & European Patent Attorney, Ph.D. in Biochemistry and Molecular Biology, Lyon
- **Margaux Beretta**, Ph.D. in organic Chemistry (ICNS - CNRS), Paris
- **Isabelle Mary**, Head of the IP Intelligence Department, French Patent Attorney, MSc Organic Chemistry (Université Paris VI), Paris
- **Laura Jonusauskaite**, IP Intelligence Specialist, PhD in Organic Chemistry, Master's in Molecular and Supramolecular Chemistry, Paris
- **Elodie Gilles-Astier**, IP Intelligence Specialist, Engineering degree in Agribusiness and health (Institut Polytechnique LaSalle-Beauvais) Paris
- **Hélène Vaillant**, IP Intelligence Specialist, Master's degree in Cellular Biology, Paris
- **Katia Pouilly**, Senior Associate, French and European Trademark & Design Attorney, IP Contracts Specialist, Paris
